

CrimpLock

CrimpLock is developed primarily for sealing meters, safety boxes and a variety of other applications. It is a cost effective seal without compromising the flexibility of serial numbers printing on its body.

APPLICATIONS

- Utility meters and valves
- Petroleum (LPG)
- Telecommunications
- Chemical drums

FEATURES

- CrimpLock is manufactured in high grade ABS resin
- Can be supplied with a sequential serial number
- Sealing pliers are needed to seal the CrimpLock
- Wire can be supplied in cut lengths or roll format

BENEFITS

- Suitable for temperatures ranging from -20 to 110°C
- Serial numbers printing enhances security
- Cost effective solution for various application needs
