

HybridLock

HybridLock is a fixed length seal with a flat tag attached to its locking head. It is made from polypropylene and is specially designed for sealing vehicle and containers used for product distribution.

APPLICATIONS

- Vehicle doors
- Tankers - petroleum, bulk foods & liquid
- Shipping containers

FEATURES

- Fixed loop design
- Patented double locking mechanism
- Pre-determined break point on the seal
- Flat tag for additional printing surface

BENEFITS

- Allows movements of the door locking mechanism without applying strain on the seal
- Enhanced level of security
- User friendly, easy removal
- Flexibility of having logo or barcode printed on tag instead of strap band
