

MetalLock

MetalLock is a heavy duty fixed length seal due to its all metal locking mechanism design. Its high break strength of up to 50kg-f/110lb-f makes it suitable for securing truck and container doors. It is a user-friendly seal which does not require any tools to apply.

APPLICATIONS

- Truck/trailer doors
- Petroleum tankers
- Shipping containers

FEATURES

- Tin plated steel material
- Metal strap with rolled edges
- Unique locking mechanism

BENEFITS

- Protects against corrosion
- Reinforces the seal's construction and is gentle to hands
- Head is designed to encapsulate the locking system to enhance security

SPECIFICATIONS

Size & Type

- MetalLock 2B - Total Length 194mmL x 8.4mmW stem (Code: ME02AB)
- MetalLock 3B - Total Length 214mmL x 7mmW stem (Code: ME03AB)
- MetalLock 5 - Total Length 218mmL x 8mmW stem (Code: ME05AB)

Strength

MetalLock 2B & 3B - > 25kg/55lbs

MetalLock 5 - > 50kg-f/110lbs

Material

Tin plated steel

Print

Available for inkjet or emboss

Temperature

-40°C - 200°C / -40°F - 392°F

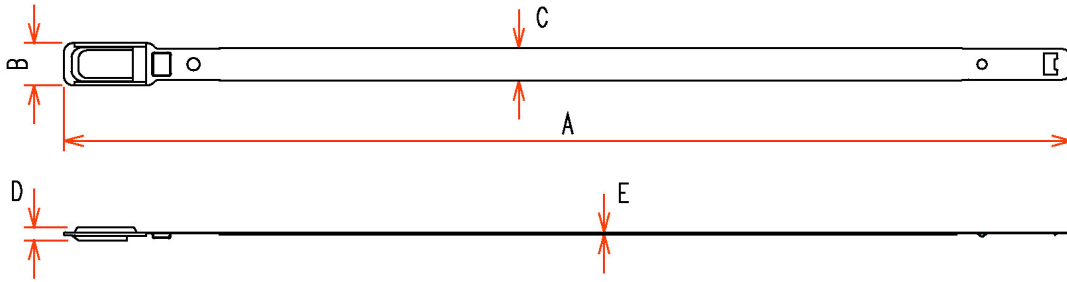

Packaging

1000 pcs/inner carton

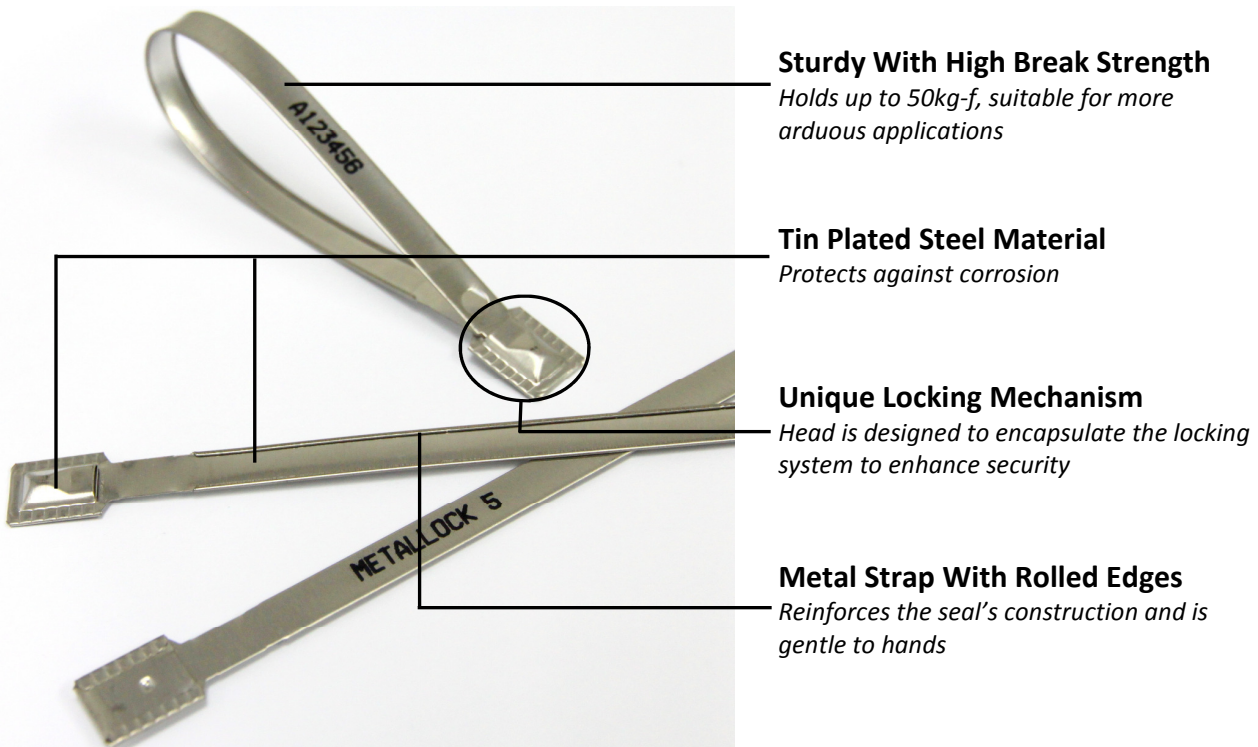

5000 pcs/outer carton

DIMENSIONS

Type	A mm [inch]	B mm [inch]	C mm [inch]	D mm [inch]	E mm [inch]
MetalLock 2B	193.5 [7.62"]	12.4 [0.49"]	8.4 [0.33"]	2.7 [0.11"]	0.4 [0.02"]
MetalLock 3B	214 [8.43"]	9 [0.35"]	7 [0.28"]	2.7 [0.11"]	0.4 [0.02"]
MetalLock 5	218 [8.58"]	13 [0.51"]	8 [0.31"]	3.1 [0.12"]	0.6 [0.02"]
