

MeterLock

MeterLock is developed and designed primarily to replace the traditional lead seal used to seal utility meters. Nevertheless this seal can be used effectively for other industry applications that requires economical security solutions.

APPLICATIONS

- Various types of utility meters
- Taxi meters
- Telecommunications
- Petroleum (LPG)

FEATURES

- Manufactured in high grade ABS resin
- Crimping pliers are needed to engage the seal
- Body retains the sealing shape after crimping
- Sealing wire length can vary to suit individual requirements

BENEFITS

- Eliminates health and safety issues applicable to lead seals
- No frills and easy to use
- Colour coding improves efficiency and tracking

SPECIFICATIONS

Size

Ø10mm x 5mm

Material

ABS resin

Colour

6 standard colours

- Red, Yellow, Blue, Green, White, Orange
- Other colours can be supplied on request

Temperature

-20°C to 110°C (-4°F to 230°F)

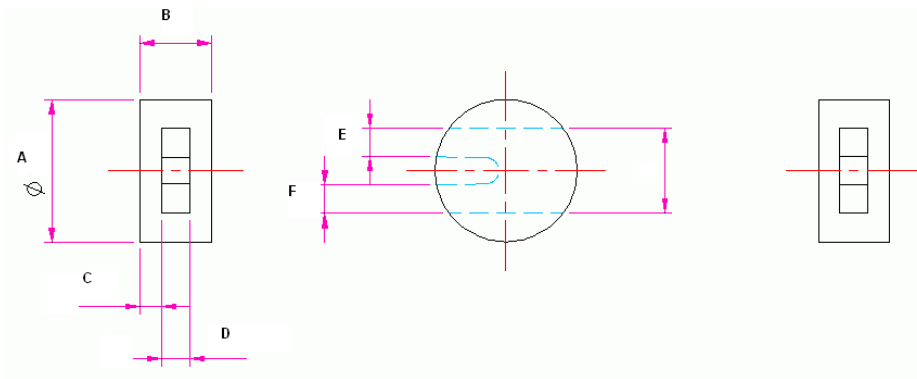

Packaging

25000pcs/inner carton,
125000pcs/outer carton

SPECIAL PURPOSE SEALS

DIMENSIONS
